### **Missouri Career Center to relocate in Nevada**

The Missouri Career Center at Nevada will move to a new, more easily accessible and spacious location this week, according to the Missouri Division of Workforce Development.

The Missouri Career Center at 111 North Elm Street in Nevada will remain closed after the end of business today through Wednesday, Feb. 27, as its staff and contents move to a new location. The office will reopen at 621 East Highland on Thursday, February 28.

"We look forward to continuing to serve our business and job seeker customers at this new location," said Rick Beasley, Acting Director of the Missouri Division of Workforce Development. "The new facility will be more accessible and customer friendly than the old location, provide additional space for area employers to conduct job interviews, and allow for possible expansion to include additional service partners. Moving existing services into a location currently housing the Missouri Division of Family Services and Missouri Department of Health and Senior Services consolidates service delivery and enhances cost efficiency."

The Missouri Career Center in Nevada is a part of a statewide network of one-stop employment and training centers. Each Center includes a variety of state and local employment, training, and supportive service agencies. The partnerships vary by the needs and resources of each area. Business and job seekers customers may use the many services available from the Missouri Division of Workforce Development, West Central Community Action Agency, Nevada Regional Technical Center Adult Education and Literacy, Experience Works (formerly Green Thumb), Missouri Division of Family Services, Missouri Department of Health and Senior Services (formerly the Missouri Division of Aging), Missouri Division of Employment Security and the Joplin Regional Center.

A number of employment and training services are also available on the Missouri WORKS! Internet site at [www.greathires.org](http://www.greathires.org). Businesses may register job openings, review the resumes of qualified applicants in the Nevada and surrounding areas and obtain valuable workforce data. Job seekers may prepare and post a resume on the Internet; review job openings in the area, across Missouri, or across the nation; and review career information on occupational growth and wage information. All services are provided at no cost.
